Re: *State of Oklahoma v. Tyson et al.*, No. 05-CV-0329-GKF-SAJ

Dear Michael:

Pursuant to the Court's order of January 5, 2007 (Dkt. 1016), and without waiving our objections, we are today FedExing to you STOK-CD81, along with an index of documents being produced.

The production of this data is being expedited pursuant to the Defendants' request and the Court's Order (Dkt. 1710). It is important to understand that in order to expedite the production of this data, we have not been able to complete our internal QA/QC process on all of this data. As the review process is completed, we will supplement the production.

Included in this production is a draft of the Quality Assurance Project Plan for the sampling that has been undertaken by the Oklahoma Scenic Rivers Commission (OSRC). I believe this plan will soon be finalized and I will provide the finalized plan when it is complete. As I have stated before, while the production of the OSRC data and the attached Project Plan may be covered by other discovery from the Defendants, they are not subject to the Court's January 5, 2007 Order or the Court's Order which requires expedited production of the results of the analysis of data collected by the State's retained experts. These materials are being produced in this expedited fashion as an accommodation.

Should you have any questions concerning this production, please do not hesitate to call.

Sincerely,

Louis W. Bullock
